SKILLS

Mobile Technologies:

- FLUTTER
- DART
- REST API INTEGRATION
- STATE MANAGEMENT (PROVIDER / RIVERPOD / SETSTATE)
- FIREBASE (AUTH, FIRESTORE, STORAGE)

Backend Technologies:

- EXPRESS JS
- NODE JS
- MONGO DB

Other:

- Git
- Authentication (JWT, OAuth)

EDUCATION

2025-2027

DR.A.P.J.ABDULKALAM TECHNICAL UNIVERSITY (AKTU), UTTAR PRADESH

- Master of computer applications (MCA)

LANGUAGES

- Hindi
- English

PROFILE

Flutter Developer with hands-on experience in building scalable and user-friendly mobile applications. Currently working as a Software Developer at a startup, developing real-world applications using Flutter, Dart, REST APIs, and modern app architecture practices. Skilled in translating UI designs into smooth, high-performance apps and adapting quickly to new technologies in fast-paced, collaborative environments.

PROJECTS

YaadKaro - AI-Powered

Learning & Assesment App

Jan,2026

- Built an AI-powered learning and assessment app for students with authentication, note management, quizzes, and oral tests.
- Implemented notebook scanning to extract questions/answers and detect grammar and conceptual mistakes using AI.
- Developed AI-based oral tests and quizzes with real human-like voice using ElevenLabs, with Google TTS as fallback for reliability.
- Integrated an AI chat module for study-related conversations with chat history and auto-generated titles.
- Optimized AI usage and cost by dynamically switching between ChatGPT-4o mini and Groq APIs based on use case.
- Improved performance and scalability using Redis caching and Dockerized backend deployment.
- Deployed backend services on a Hostinger VPS for production-ready usage.
- **Technologies Used:** Flutter, Dart, Node.js, Express.js, REST APIs, Nodemailer, OpenAI(ChatGPT-40 mini), Groq API, Redis, Docker, Authentication(JWT), Voice Processing & AI Integration

EXPERIENCE

SoftwareDeveloper - Startup

Sep, 2025 - Present

- Developing and maintaining production-ready Flutter mobile applications with focus on performance, scalability, and clean UI.
- Implementing authentication, REST API integrations, and AI-powered features to deliver real-world app functionality.

OBJECTIVE

Seeking aFlutterDeveloper role to apply my experience in building scalable, AI-enabled mobile applications and contribute to delivering high-quality, user-focused software solutions.
