- Hindi
- English

PROFILE

Full Stack Developer with a strong foundation in the MERN stack and modern web technologies. Currently working as a Software Developer at a startup, gaining hands-on experience in building scalable web and mobile applications using Next.js, React, Node.js, Express.js, MongoDB, and Flutter. Skilled in adapting to new technologies, solving real-world problems, and contributing effectively in fast-paced, collaborative environments.

PROJECTS

SyncDraw - Real-Time

Collaborative Drawing App

Nov,2024

Live: <https://syncdraw.netlify.app/>

- Built a real-time drawing app enabling collaborative painting on split or merged screens with friends, featuring in-app audio and chat communication for interactive sessions.
- Technologies Used:Next.js, React, Tailwind CSS, Node.js, WebSocket (for real-time updates), WebRTC (for audio communication).

Stream Sync - Interactive

Video Platform

July-sep ,2024

Live: <https://syncdraw.netlify.app/>

- Developed an interactive video platform featuring real-time stories, advanced comment search, and an in-app chat system that allows users to message subscribers and groups, including sharing videos directly within chats.
- Technologies Used: Next.js, React, Tailwind, Node.js, Mongo db, pusher (forreal-time updates).

EXPERIENCE

FullstackWebDeveloper - Startup

Sep, 2025 - Present

- Developing and maintaining scalable web applications using React, Next.js, and the MERN stack in a startup environment.
- Built end-to-end features including tutor-student LMS platforms with role-based access for students, tutors, and admin panels.

OBJECTIVE

Looking toleverage my frontend skills in building scalable and user-friendly web applications and contribute to delivering high-quality software solutions.
